ST21

During the drafting of Strategy 21, national authorities and other stakeholders provided valuable good practices that were incorporated in the website.

EYCH 2018 is a particularly relevant year for heritage, full of interesting projects and activities.

We invite you to share the valuable experiences that meet any of the Strategy 21 recommendations and that have fulfilled their essential aims:

1. PARTICIPATORY MECHANISMS - implementing bottom up/top down heritage governance.
2. CROSS-DISCIPLINARY COLLABORATION - producing an impact in the social, development and knowledge spheres of influence.
3. LEADING TO CHANGE - the capacity to have a real and sustainable impact.

Your experience could be transferable to other situations and places: we invite you to send us the details of your PROJECT and its CONTACT.
